

Dylan Conklin is a designer, developer, real human being and a real hero. He crafts experiences for real people.

EXPERIENCE

Chesapeake Energy

Interactive Coordinator (2011-Present)

Designed, developed and managed the majority of the company's outward facing and educational web initiatives. My position brought on priority of mobile optimization and increased web usability.

My projects included [naturalgas.is](#), [chesapeakeoilfieldservices.com](#), all wholly owned affiliates as well as designing interfaces for multiple job portals.

Monscierge

Creative Director and Lead Designer (2009-2011)

Monscierge is an innovator of UX/UI technologies. As creative director I led a team of designers, developers, writers and researchers to product fruition. As an early member of this startup I provided creative and artistic direction to branding, collateral material, web strategy and product design.

Staplegun Design

Designer (2008-2009)

At Staplegun Design I designed for both print and web for local and national clients.

Some of these clients include: Kirkpatrick Bank, Catholic Charities of Oklahoma, Oklahoma Agritourism, Oklahoma Dept. of Commerce, At The Beach and CoreVault

SKILLS

Responsive cross-platform web design

Mobile and desktop user interface design

Semantic HTML5 and CSS3 development

JavaScript and jQuery development

CMS theming and development

Social media application design

Information architecture, userflow, and wireframing

Pending: Cocoa Touch development

Pending: iOS Development
